

STEVIA**DIS**

What is SteviaDis?

It is a 100% natural extract obtained from the leaves of ***Stevia rebaudiana***.

Among the characteristics that make it interesting for animal feed are:

- Increased palatability
- Appetite stimulation
- Improvement of production parameters

Recommended dosage				
	PRE-STARTER	STARTER	FATTENING	SOW
	200-250 g/tm	150-200 g/tm	100-150 g/tm	200-250 g/tm
	CALVES	DRY COW	LACTATING COW	
	200-250 g/tm	150-200 g/tm	100-150 g/tm	

Sweetening Power:	STV:	RebA:	RebC:
100	25-30%	20-25%	10-15%

CHARACTERISTICS

The main parameter that is evaluated when determining its quality are the glycosides, and among them, fundamentally: **stevioside (STV)**, **rebaudioside A (RebA)** and **rebaudioside C (RebC)**.

RebA is the one that determines the sweetening power of stevia and the others determine the **flavour** it will have:

Glycosides	Sweetening Power	Flavour
Stevioside	200 - 500	Bitter
RebA	250 - 400	Sweet
Reb B	300 - 350	Bitter
Reb C	50 - 120	Very bitter
Reb D	250 - 300	Sweet
Reb E	150 - 200	Sweet
Dulcoside A	50 - 120	Very sweet

CLEAN LABEL

PRODUCTIVE PERFORMANCE

BETTER PALATABILITY

SteviaDis SG75 has been specially designed for the formulation of diets for production animals.
